

Saint Rocco's Treats Wholesale Information

Our advantage:

Saint Rocco's Treats offers a unique creation that can NOT be found in the dog treat industry today. The combination of our handmade process, use of human grade ingredients, and a vow to bake each batch fresh without chemical preservatives, creates an irresistible snack for all dogs. This concept of treats has been an outstanding success in and around the Bucks County area. At this time, we supply 10 independent retailers throughout Bucks County, PA. Since inception, we have never been removed from an independent retailer's offerings and enjoy month after month sales growth in each location. There is a need for high quality dog treats among dog owners and Saint Rocco's is here to fill that void.
